PROJECTS

Project Name: Garden

Garden is a web application that I developed using **HTML, CSS, Bootstrap, and JavaScript.** It's not just a virtual garden but a digital oasis where users can immerse themselves in the beauty of nature right from their screens. This project was a labor of love, combining my passion for web development with my appreciation for the natural world.

Project Name: My Portfolio

I designed and developed a personal portfolio website using **React.js and Tailwind CSS** to showcase my skills, projects, and accomplishments. This project served as a central hub for potential employers and clients to learn more about me and my work.Created a fully responsive website that looks and functions well on various devices, including desktops, tablets, and mobile phones.

UI/UX Designs :Fashion Website, Some Products Designs (Using Figma).
